Hawa was going to the city by bus. The bus driver switched on loud music. There was too much noise in the bus. It was very hot in the bus. Hawa started to feel sick. She removed her sweater. She was sweating. A man and a woman saw her. One woman asked people to open the windows. A man asked the driver to switch off the loud music. Hawa started feeling well. When the bus got to the city, she thanked them. Then Hawa took a tuktuk ride around the city

## SECTION B

### TASK 3

#### READING COMPREHENSION

#### LANGUAGE STRUCTURE AND FUNCTIONS

Some animals eat meat. They are called carnivores. Other animals eat plants. These animals are called herbivores. The rest of the animals including humans are omnivores. Omnivores eat both meat and plants. Vegetarians are people who do not eat meat.

In order to be healthy, people must eat a variety of foods. Adults and children need to eat vegetables. This is how they get the important vitamins and minerals. Children need to eat foods that contain calcium for strong bones and healthy teeth. Children grow fast and their bones grow fast too.

Calcium helps children to build healthy adult teeth after they lose their baby teeth. Broccoli and spinach are two vegetables that contain a lot of calcium.
